PROFILE

A passionate Web Developer and Machine Learning Enthusiast and Content Writert, always open to challenges and driven by a thirst for learning new things. Have a strong foundation in HTML, CSS, JavaScript, ReactJS, PHP, SQL, and DBMS, with experience in building landing pages and web applications. Skilled in data analysis and visualisation using Python (Pandas, Matplotlib), with a keen interest in product development and AI-driven solutions. Adept at problem-solving, analytical thinking, and collaborating in dynamic team environments.

Freelance Web Developer — 2023 - present

1. Designed and developed landing pages and web pages using modern web technologies.
2. Implemented responsive designs and enhanced user experience.

Machine Learning Projects – 2024–Present

1. Worked on data preprocessing, visualisation, and analysis using Python (Pandas, Matplotlib).
2. Explored ML algorithms to derive insights from data.

Subject Matter Expert – GITAM-Based Startup (2025–Present)

1. Provided technical support and educational content development.
2. Assisted in problem-solving, debugging, and data-driven insights.

EDUCATION

GITAM UNIVERSITY – B.TECH IN COMPUTER SCIENCE (2ND YEAR)

1. CGPA: 9.72
2. Actively participated in hackathons, coding challenges, and product development events.

SKILLS

1. **Web Development:** HTML, CSS, JavaScript, ReactJS, PHP
2. **Database Management:** SQL, DBMS
3. **Machine Learning:** Python (Pandas, Matplotlib), Data Analysis & Visualization.
4. **Problem-Solving:** Analytical thinking, debugging, optimization
5. **Soft Skills:** Communication, teamwork, adaptability.
6. **Content Writing:** Technical documentation, blogs, and articles

PROJECTS

1.   Landing Page Designs – Created responsive, visually appealing landing pages.

2.   Cloning — built clones of some famous websites such as Netflix, and Microsoft homepages.

3.   Machine Learning-Based Analysis – Implemented data-driven models for insights.

4.   Portfolio Website – Built a personal website showcasing skills and projects.

5.   Technical Blog Writing – Published informative articles on technology and programming.
